Mfgr. Of: Battery Operated Materials Handling Equipments, Solid Rubber Tyre, Caster Wheels

Battery Operated Trolley

We are manufacturing battery operated **platform trolley, Tugger, Carts, pallet truck and stacker.**

Battery operated Trolley :

Battery operated Electric Trolley is ideal for moving light to heavy loads safely and easily throughout warehouses, factory, offices, schools, hospitals, labs, pretty much anywhere that transports materials on a frequent basis. The trolley is efficiently able to handle steep incline with load. It only needs one man power there by saves extra man power cost. It is simple and safe to operate without the need for any additional training.

Our battery powered trolley is highly customizable. If our standard units do not meet your application requirements, we can specialize it's design to suit your specific needs.

Standard Features :

- we use good quality Indian standard D.C. Electric heavy duty motor.
- Curtis made Electric control spare parts.
- Elecon & Rotomotive or similar brand reduction gear box.
- it has Excide tubular battery for long life.
- Automatic charger for more battery life and to save power.
- we use good quality Indian standard D.C. Electric heavy duty motor.
- Curtis made Electric control spare parts.
- Elecon & Rotomotive or similar brand reduction gear box.
- it has Excide tubular battery for long life.
- Automatic charger for more battery life and to save power.

Battery Operated Platform Truck

Specification :

- Platform size 800 mm X 1200 mm.
- Load capacity 500 kg. or available up to 3000 kg.
- Operated by standing on its platform.
- Simple and easy to operate by just pressing one button.
- With 1 hp./24 volt battery powered drive DC motor
- With Elecon / Rotomotive brand Reduction gear Box.
- Hydraulic disk Brake.
- Forward motion speed 2.5 to 3 KM/hr.
- Emergency cut-off switch.
- Curtis brand D.C. powered contactor.
- 12 volt X 100 AH, 2 nos. Tubular type excide battery.
- 24 volt/20 Amp. Automatic stop Battery charger.
- Heavy duty fabricated steel body works.

Battery Operated Platform Truck

Specification :

- Platform size width 1500mm X 3000mm or as per your Requirements.
- **Load capacity 1000 kg.**
- 3 wheel solid rubber tyre
- Accelerator & hydraulic brake is foot operated
- Accelerator control for forward & reverse motion, speed maximum 4 to 5 KM/hr no load and with load 3 to 4 KM/hr.
- Hydraulic disk brake.
- Horn, light, emergency cut-off & key switch are mounted on dash board.
- With 2 hp. / 24 volt battery powered drive DC motor.
- With Rotomotive make reduction gear Box.
- 24 volt/15 Amp. Auto cut battery charger for power saving and more battery life.
- 2volt/150 AH tubular type excide make 2 nos. batteries.
- Battery condition meter.
- Curtis made Electric contactor and speed controller, standard Indian made electric motor.

Battery Operated Cart/Trolley

Specification :

- For UPVC, PVC, M.S. or S.S. Pipe handling.
- Platform size width 1500mm X 5000mm or as per your

Requirements.

- Load capacity 3000 kg.
- 4 wheel solid rubber tyre
- Accelerator & hydraulic brake is foot operated
- Accelerator control for forward & reverse motion, speed maximum 4 to 5 KM/hr no Load and with load 3 to 4 KM/hr.
- Hydraulic disk brake.
- Horn, light, emergency cut-off & key switch are mounted on dash board.
- With 5 hp. / 36 volt battery powered drive DC motor.
- With Rotomotive brand reduction gear Box.
- 36 volt/25 Amp. Auto cut battery charger to save power and enhance battery life.
- 12volt/200 AH tubular type excide brand X 3 batteries.
- Battery condition meter.
- Curtis made Electric contactor and speed controller, standard Indian made electric motor.

Battery Operated Tow Truck

Specification :

- Two ton towing capacity with solid rubber tyre
- Accelerator & hydraulic brake is foot operated
- Controls for forward & reverse motion, maximum speed of 5 to 6 KM/hr with no Load and with load 3 to 4 KM/hr.
- Hydraulic disk brake.
- Horn, light, emergency cut-off & key switch are mounted on dash board.
- With 2 hp. / 24 volt battery powered drive DC motor.
- With Rotomotive brand made reduction gear Box.
- 24 volt/15 Amp. Auto cut battery charger to save power and enhance battery life.
- 12volt/100 AH tubular type excide brand made X 4 batteries.
- Battery condition meter.
- Curtis made Electric contactor and speed controller, standard Indian made electric motor.

Trolley With Stand on. Load Capacity Up to 500kg to 3Tone.

Special Trolley

Trolley for heavy duty load with turning table. This type of trolley available from 500 Kg. to 10,000 Kg. load carrying capacity. Trolley can be towed by Battery operated tow truck, tractor or forklift.
